To whom it may concern

I am delighted to write this letter of recommendation for Mr. Hasan for the PhD program at your esteemed institution.

I have observed the development of Mr. Hasan over the last three years through the humanitarian response in the Rohingya Refugee Camp in Cox's Bazar, Bangladesh. Throughout this time, he has grown professionally and personally, emerging as a mature individual well-prepared for any field of his journey. He joined as a management information system (MIS) officer in 2021 at Partners in Health and Development to serve Health-related data on Rohingya Refugees. Still, he joined as a Health information system (HIS) officer in a renowned international organization named Food for the Hungry in such a short span due to his diligence, hard work, and innovative aptitude. I was fortunate to be his immediate supervisor as I am the Research Coordinator of the Monitoring, evaluation, and Research Department at Greenhill-Community Partners International and Mr. Hasan joined us as a Monitoring Evaluation Officer last year. In Greenhill-Community Partners International, his main responsibility is Participating in monitoring, and evaluation of the program, and supporting any research activities.

Mr. Hasan is an extremely organized and self-motivated individual and has excellent communication skills. He can perform well within deadlines even under pressure and has the skills to lead a team skillfully. He possesses design thinking abilities and can critically analyze issues to foresee upcoming problems and can work out solutions by going beyond the call of duty if required. He has a unique ability to motivate others also to deliver their best due to which his team is always a winner. He takes an interest in new ideas and takes steps only once he understands the whole scenario. his best quality is being honest and owning a mistake even if it is negligible.

Mr. Hasan is one employee who if tomorrow joins us back as my boss, I will appreciate and admire as he is truly an outstanding personality capable of bringing positive changes in his surroundings. He deserves to get in-depth knowledge of management systems as he can use that knowledge to benefit the subject, institution, community, and surroundings to say the least. I strongly recommend his admission to your esteemed university and look forward to seeing him emerge as a more resourceful person as higher education opportunities at a world-class institution will add a new dimension to his career.

If you have any queries, please get in touch with me at the contact details below.

Thanking you.

Sincerely,

[Tofajjel Hossain]
