Notably, he contributed significantly to a publication titled "*Progress Towards a One Health Approach for Dog-Mediated Human Rabies Elimination in Bangladesh: On the Way to Zero by 30*" which was submitted to **The Lancet Regional Health**. We also collaborated on numerous other projects, and I observed his enthusiasm for acquiring in-depth knowledge related to our field. **Mr. Hasan** exhibited exceptional intelligence, diligence, sincerity, and the ability to make independent judgments. His problem-solving skills, including defining issues clearly, identifying relevant factors and relationships, and formulating testable hypotheses through statistical data analysis, were truly impressive. His dedication to conducting research using available resources is highly commendable.
